

The Organica Collection

The World's first flavored vodkas made with
100% organically-grown fruit.

In 1998, CHARBAY pioneered using **100% fresh, REAL ingredients** to make flavored vodkas, shunning the use of the artificial (and so-called “natural”) flavors and colors used in the beverage industry.

Was it a “Green Statement?” Not really. 13th Generation Distiller Marko simply decided they TASTED the best.

Food & Wine magazine awarded Marko the title of
“Vodka Visionary”...a title not given to any other company since.

Available Flavors:

Blood Orange
Meyer Lemon
Pomegranate
